Shawna Hamilton Phlebotomist

Cleveland Area Hospital is proud to have Shawna Hamilton as part of our team!

Though she spent much of her childhood moving around, she considers herself to be from Bartlesville, as that is where she spent the longest time and is where she graduated high school. Growing up, Shawna became more and more interested in drawing blood specimens; she found what information you can learn from a simple blood test to be fascinating. Once she began working in the lab, she knew that was where she wanted to continue working.

Shawna now has a certificate in Phlebotomy and plans to continue her education to become a licensed Medical Laboratory Technician.

Shawna's interest in our organization began in 2009 when she worked here in the lab as a student in the workforce program for 4 months. After the temporary position was over, she moved to our Business Office, part time filing in medical records and part time as an insurance clerk for Physical Therapy. Then, she moved her career closer to home at Pawhuska Hospital for 4.5 years. She then moved to Tulsa and came back to finally fill a position in our lab department. Shawna has now been with CAH for 5.5 years and a Phlebotomist for 10 years!

In her free time, Shawna can be found spending time with her 12 year old and 2 month old sons, going to the lake with her family, fishing and crocheting. Her favorite thing to do in Cleveland, though she lives elsewhere, is to bring her children here to trick-or-treat Main Street on Halloween! Shawna is a wonderful worker and we are proud to have her as a part of our team. Thank you for everything you do!

Tiffani Czapansky, LPN Clinical Informaticist

Tiffani Czapansky is a fantastic member of our Cleveland Area Hospital team.

Directly after attending a tech school to become an LPN, Tiffani moved to Cleveland and began her career with CAH. She has worked on our medical surgical floor, in our emergency department, at our clinic, as our quality coordinator and now as our Clinical Informaticist in IT. This November, she will have been with us for five years!

Tiffani has found that while being Clinical Informaticist, she is able to have a greater understanding of how everything works in the hospital from the background. Working closely with each department has helped her learn their processes and how they each contribute to the flow of our organization. She also enjoys the challenges of working in IT, as it pushes her to think outside of the box in different ways than working as a nurse. Now, she gets to mix the two professions together and loves it! However, what she loves the most is her 'family away from home' and seeing how everyone works together to help each other in times of need.

In her free time, she enjoys going on adventures and can be found fishing, hiking and taking her dogs to walk on trails and play in the lake. She also loves to crochet! We are so proud of Tiffani's versatility and wide range of skills within our organization. Thank you for all of your hard work and dedication. We appreciate you!

WELCOME

Ray Moss, CPA *Chief Financial Officer*

Cleveland Area Hospital would like to welcome our new Chief Financial Officer, Ray Moss, CPA.

Ray Moss received his MBA with an emphasis in Accounting from Oklahoma Christian University and is certified in Public Accounting (CPA), Managerial Accounting (CMA) and Healthcare Finances (CHFP). As we welcome him to our organization, he has 6 years of experience in Public Accounting and 8 years of experience in Healthcare Finance.

Ray's direction and interest in Critical Access and Rural Health Care was instigated while working with a healthcare system to help convert and map financials and operations over during an acquisition. His interest in the flow of patient admittance to billing and reimbursement grew, encouraging him to learn more each day. "First and foremost, I enjoy people. The different stories of people's lives, the collaboration between individuals and the experience that that brings on a daily basis. Secondly, I enjoy the puzzle of it all. Healthcare is a problem-solving field, no matter what role, and it keeps every day interesting."

In addition to our beautiful rural scenery, Ray tells us he was drawn to our organization by our CEO, Edred Benton, stating "People follow people before they engage in a mission. Edred has a leadership style that I recognize from my experience that is both positive and effective." Ray also commends our mission and core values, admiring that each team member seems to sincerely have the patients' best interest at heart.

Ray grew up in Hollis, OK, has a love for fishing, camping, being outdoors and spending time with his fiancée, Jordan, and two sons, Jaxsen (9) and Maverick (2). He can also be found training for the Tulsa Ironman and running obstacle course events such as Spartan, Tough Mudder, Bonefrog, GoRuck and more!

Welcome to Cleveland Area Hospital, Ray! We are excited to have you on our team.

May Recognitions

Nursing Professionals

Leading you on your path to recovery.

of our nurses and their wide range of abilities to effectively carry out the needs of our patients. We appreciate each and every one of you!

May 4-8: Nurses Week

Nursing professionals play a crucial role in medical facilities everywhere. While being tough, fast-paced critical thinkers serving on the front line of defense, nurses are also compassionate advocates for patient well-being. We are so proud

HAPPY NATIONAL HOSPITAL WEEK

MAY 10 - 16, 2020

Join us in recognizing hospital employees across the United States for their compassion and extraordinary dedication to their patients and communities.

Call 918-358-3588 to schedule!

Donate BLOOD

Blood is one of the most precious, life saving gifts that someone can give. While not all people are qualified to donate, just one person can save up to three lives each time they donate.

If you are over 17, weigh at least 110 pounds, have never used non-prescription self-injected drugs, do not have hepatitis and are not at risk for aids, you are likely a candidate to be a hero.

Blood donations are needed for women with pregnancy complications, children with severe anemia, people with severe trauma, complex medical and surgical procedures, cancer patients and many other complications.

Since blood donations can only be stored for a limited amount of time, it is crucial that we maintain a regular flow of donations to preserve a quality supply for emergency situations.

While donating blood can save the lives of many, it can also offer benefits to the one donating. According to a report by the Mental Health -

Foundation, helping others can reduce stress, improve your emotional well-being, benefit your physical health, reduce the sense of isolation and provide a sense of belonging to your community.

Here in our community, the Cleveland Area Hospital Auxiliary can be found hosting its 11th year of blood drives at the First Christian Church. Blood drives are held the second Thursday of even months with the next event being held on June 11th, 2020.

For more information, call 1-800-REDCROSS or visit RedCrossBlood.org and enter: clevelandok
